

Asian Eventing Championship a winner for ISBT's Suzanne Baker

ISBT-Equine Bowen Therapy teacher Suzanne Baker was physical therapist, coach and trainer of the winning horse in the first ever Asian Eventing Championships held recently in Thailand.

The Gold Medal performance by Annie Ho on Supercombed, a 13 year old former Group One racehorse, has inspired the Hong Kong based team to establish a strategy to prepare for possible inclusion in the Olympic Team in Rio De Janeiro.

Suzanne said that there was a long way to go before they would be confident of being on the Olympic team but the Asian Championship performance was 'extremely encouraging.'

"The horse and rider combination has come together really well with Annie and Supercombed and the performance in Thailand was excellent. We couldn't be more pleased," she said, "But we have a lot more work to do before Rio where the standard will be a step up."

Suzanne is no stranger to world class events, having been physical therapist for previous Asian Games events and physical therapist on the Physiotherapy Team at the Beijing Olympics.

Suzanne has been teaching ISBT-Equine and Canine Bowen Therapy in Australia, Germany, Austria and ISBT-Canine Bowen Therapy in Hong Kong.

Her next courses in Australia will be held in February and March 2014.

Courses are planned for Portugal for 2014.
